

# Winshuttle Super-Sized: Macros, VBA, Winshuttle Forms and Workflow

Steven Branch – Geoff Hayward | Configurable Management

**WINSHUTTLE**  
**USER**  
**GROUP**  
SAN DIEGO | 2013

# Agenda

- Configurable Management Introduction
- Overview of Custom Solutions
- Live Demonstrations of Custom Solutions
- Q&A

# Configurable Management

## Implementing SAP since 1995

- Experienced SAP Consultants
- Remote Basis & Security Administration
  - Installation, Upgrades, Maintenance & Support
  - Solution Manager E2E/RCA, MOPz, EWA
  - HANA Administration
- FI, CO, MM, SD, WM, PP, PM, ABAP
- SAP Hosting
- Project Staff Augmentation

## Winshuttle Premier Partner

- Authorized Reseller Since 2007
- Master Data Governance
- Data Validation Solutions
- Transaction Development
- Workflow Development
  - Implementation
  - Training
- VBA Custom Development
  - Excel
  - Access

Ask about our customized services to meet your specific need.

*Converging People, Processes  
and Systems*

*We now provide customized hosting  
solutions as well. See the reverse  
side of this card for details.*

# Custom Solution: Data Validation

- Legacy to SAP Conversions Validation
  - the typical approach is to have users manually verify a subset of the data that has been converted into SAP
  - The results of the manual validation process determine next steps
- Challenges with Manual Data Validation
  - Only a small portion of the data is actually reviewed
  - Results are dependent on the users
  - Fatigue and repetition create opportunity for error
- How Can Data Validation be Improved

- Data Validation

Legacy to SAP Data Validation Dashboard
