What is Connect?

Why Connect?

Why did we create Connect?

- Node locked issues

 - Unknown license users

 - Easy to break/lose access

- Network

 - Requires 3rd party tool

 - Unable to control what is supported by this tool

 - Easy to break/lose access

Why Connect?

Control

- **Internal license management**

Flexibility

- **Easily move from one PC to another**
- **Access shared environments**

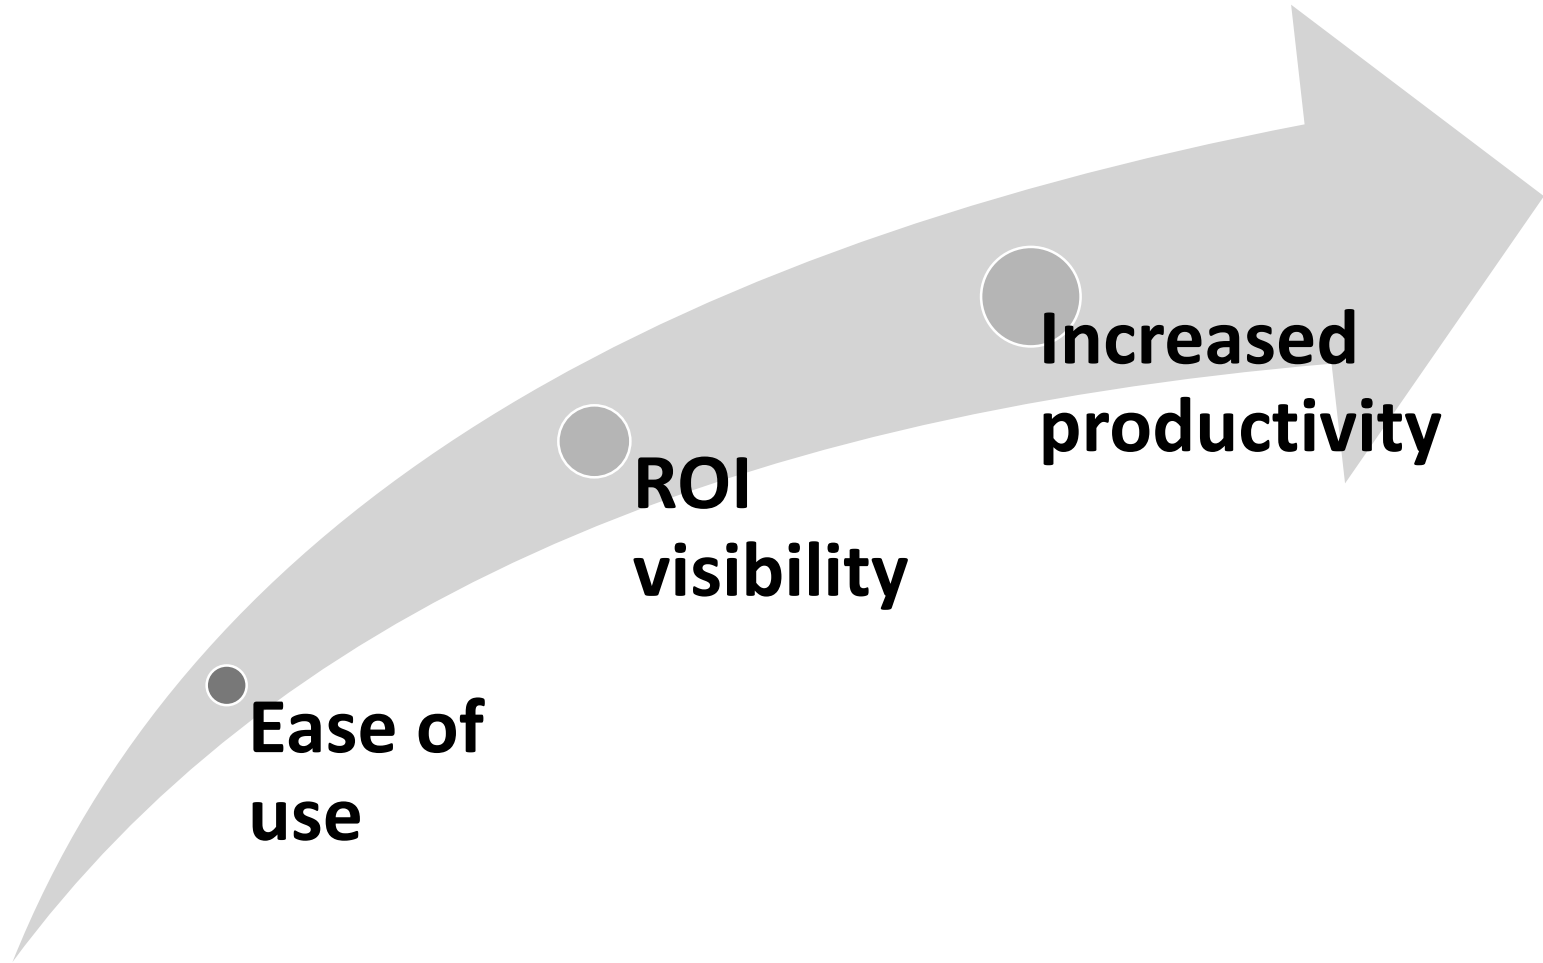

Insight

- **Who are your power users?**
- **What are your time savings?**

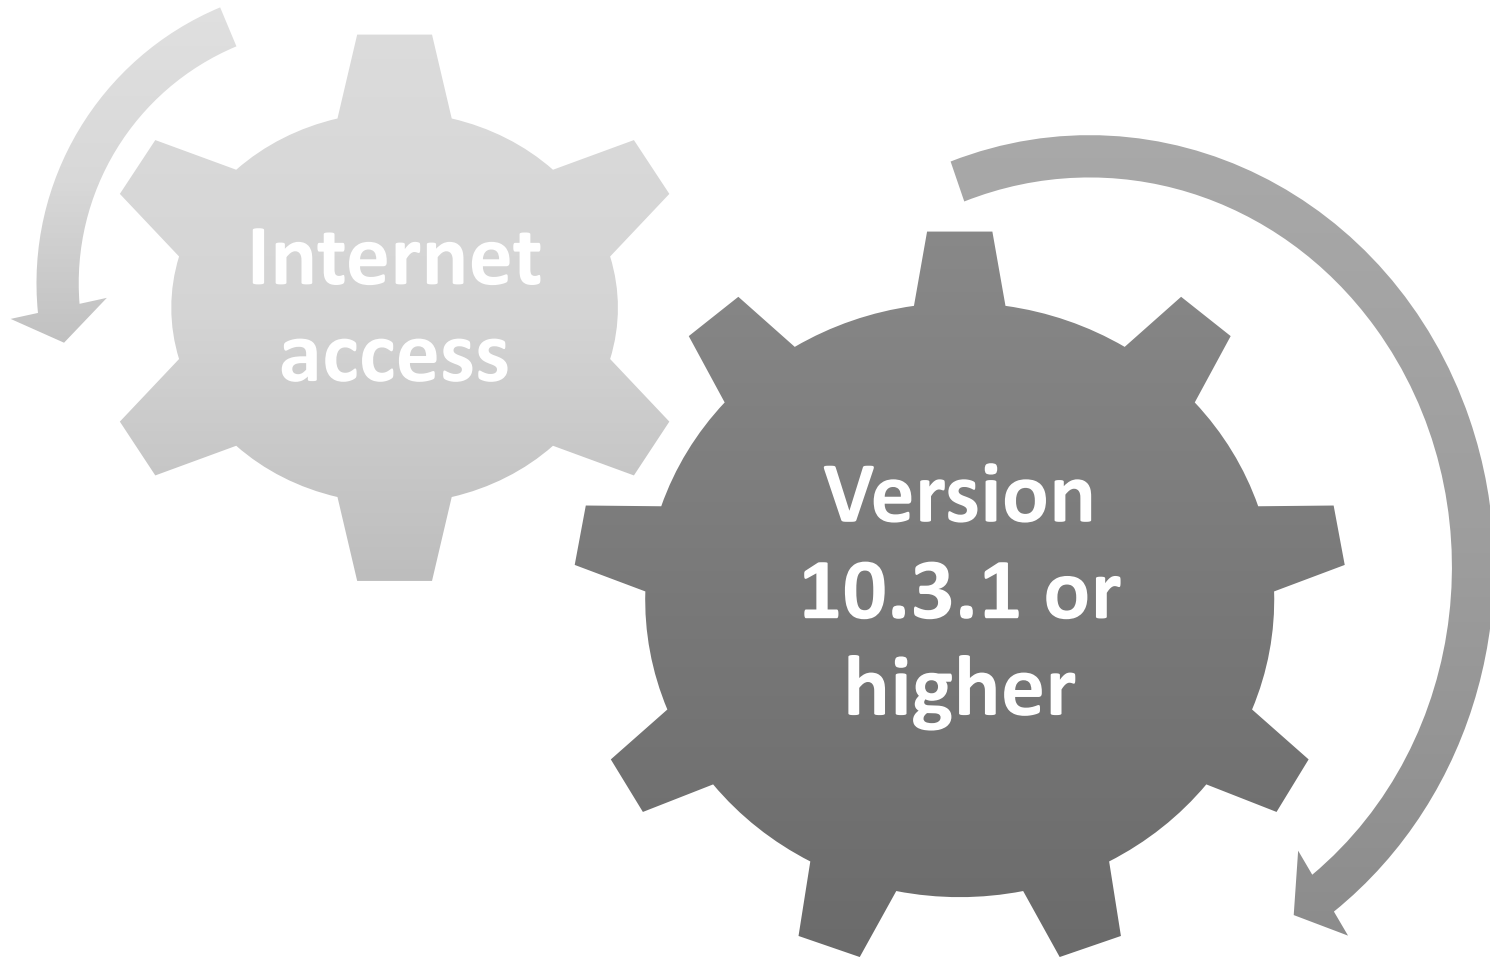

Example of a Connect win

- Upgrade OS/hardware ≠ node locked
- Single user tied up 7 licenses
- 10 business areas needing to manage
- Maintenance renewal lapsed

What does this mean for your organization?
