1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo

PO Creation Topics

Creating a purchase order using Transaction

- Tips for recording
 - Which recording mode to use
 - Building your loop
 - Adding item details

Creating a purchase order using Direct

- Which BAPI to use and what fields to select
- Benefits vs. using a Transaction script

Updating a purchase order using Transaction

- Updating specific line items

1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo

PO Creation Using Transaction in ME21N

ME21N

- Which recording mode should I use?
 - Batch or Non-Batch
- Where do I place my loop?
 - Create one line item outside of the loop
- How can I add item details for each line item?
 - Select each line to add additional info

1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo

PO Creation Using Direct with BAPI_PO_CREATE1

BAPI_PO_CREATE1

- Why would I use this instead of ME21/ME21N?
 - Useful when being used with a web form
 - Faster than a batch/non-batch recording
 - Able to update any fields without using GUI scripting

1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo

PO Update Using Transaction in ME22N

ME22N

- Which recording mode should I use?
 - Batch or Non-Batch
- Should I use a loop?
- How can I add item details for each line item?
 - Filter to your item to additional info
 - PO Creation Using Direct with BAPI_PO_CREATE1

1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo
