SSID – Omni Meeting
Username - wug
Password – omni14

1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo

Creating & Updating Orders Topics

Creating Orders in Transaction

- Tips for recording
 - Inputting header details
 - Building your loop
 - Adding item details

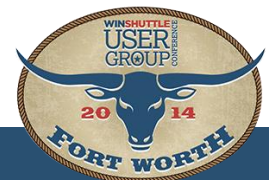

Creating Orders in Direct

- What BAPI to use and what fields to select
- Benefits vs. using a Transaction script

Updating Orders

- Updating specific line items

1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo

Order Creation

VA01

- Tips for recording
 - Input all of your header details first
 - Insert your line items into the 2nd row
 - Add item details and building your loop

1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo

Order Creation Continued

BAPI_SALESORDER_CREATEFROMDAT2

- Why would you use this over VA01?
 - If 'Launch GUI' is required, is easier to use in a form
 - Faster than a batch/non-batch recording
 - If skip screens or conditions for popups become to difficult to manage

1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo

Order Updates

VA02

- What orders do I want to update?
- How to update specific line items

1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo

Questions?

1. Go to View > Slidemaster
2. Right Click Here
3. Select Change Picture
4. Insert your logo
