Agenda

- Business Issue
- Example Overview
- Demo
- Benefits
- Your Feedback?

New Product Introduction → Getting to Market Faster

WINSHUTTLE.

Example – New Product Introduction

Apple iPhone 6S – 24 new Materials

2 sizes

- 5.5 in – iPhone 6S Plus
- 4.7 in—iPhone 6S

4 colors

- Space Gray
- Silver
- Gold
- Rose Gold

3 capacity

- 16GB
- 64GB
- 128GB

Example – Requirements

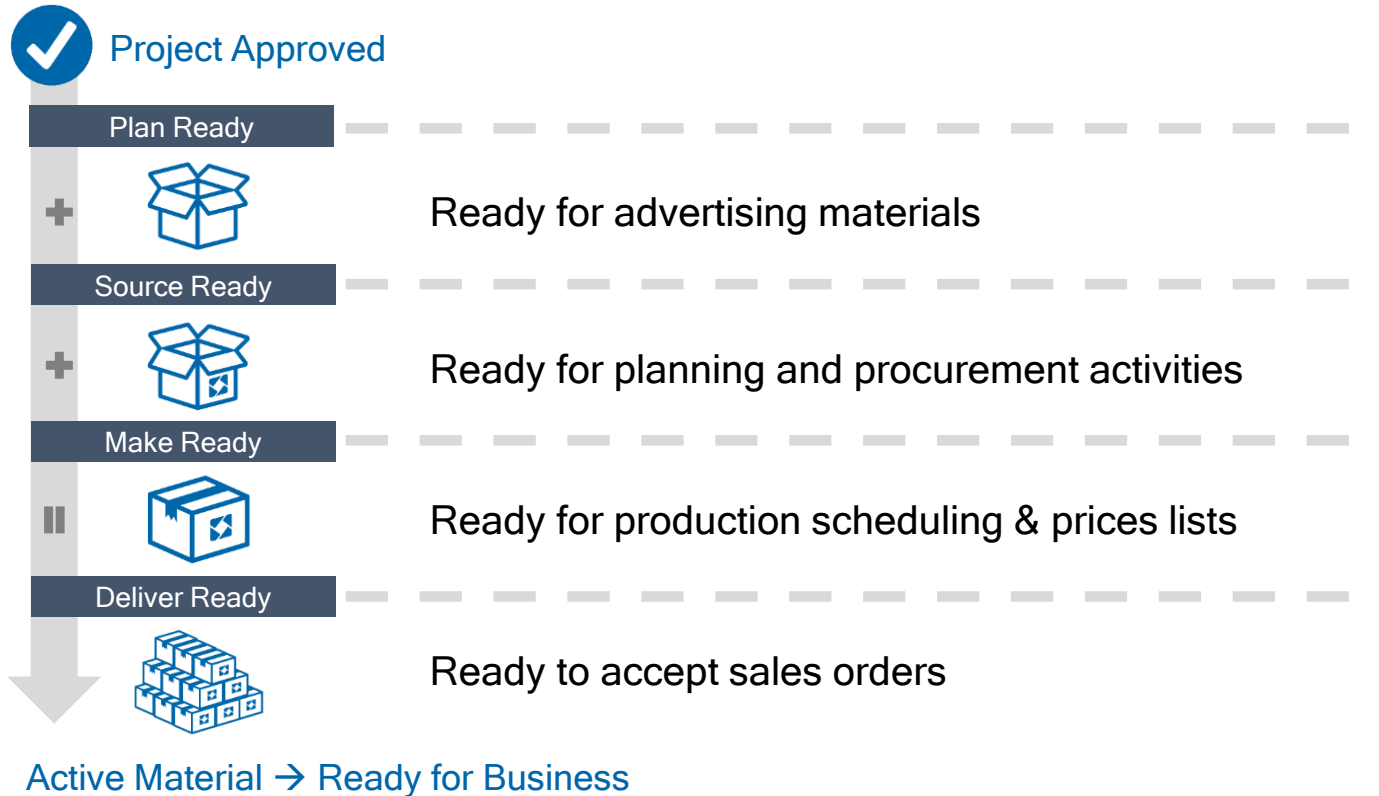

Create all materials for a New Product Introduction

- Bulk routing/approvals
- Copying from ONE material
- Faster SAP entry
- Concurrent editing → different fields
- Rejections, but no additions

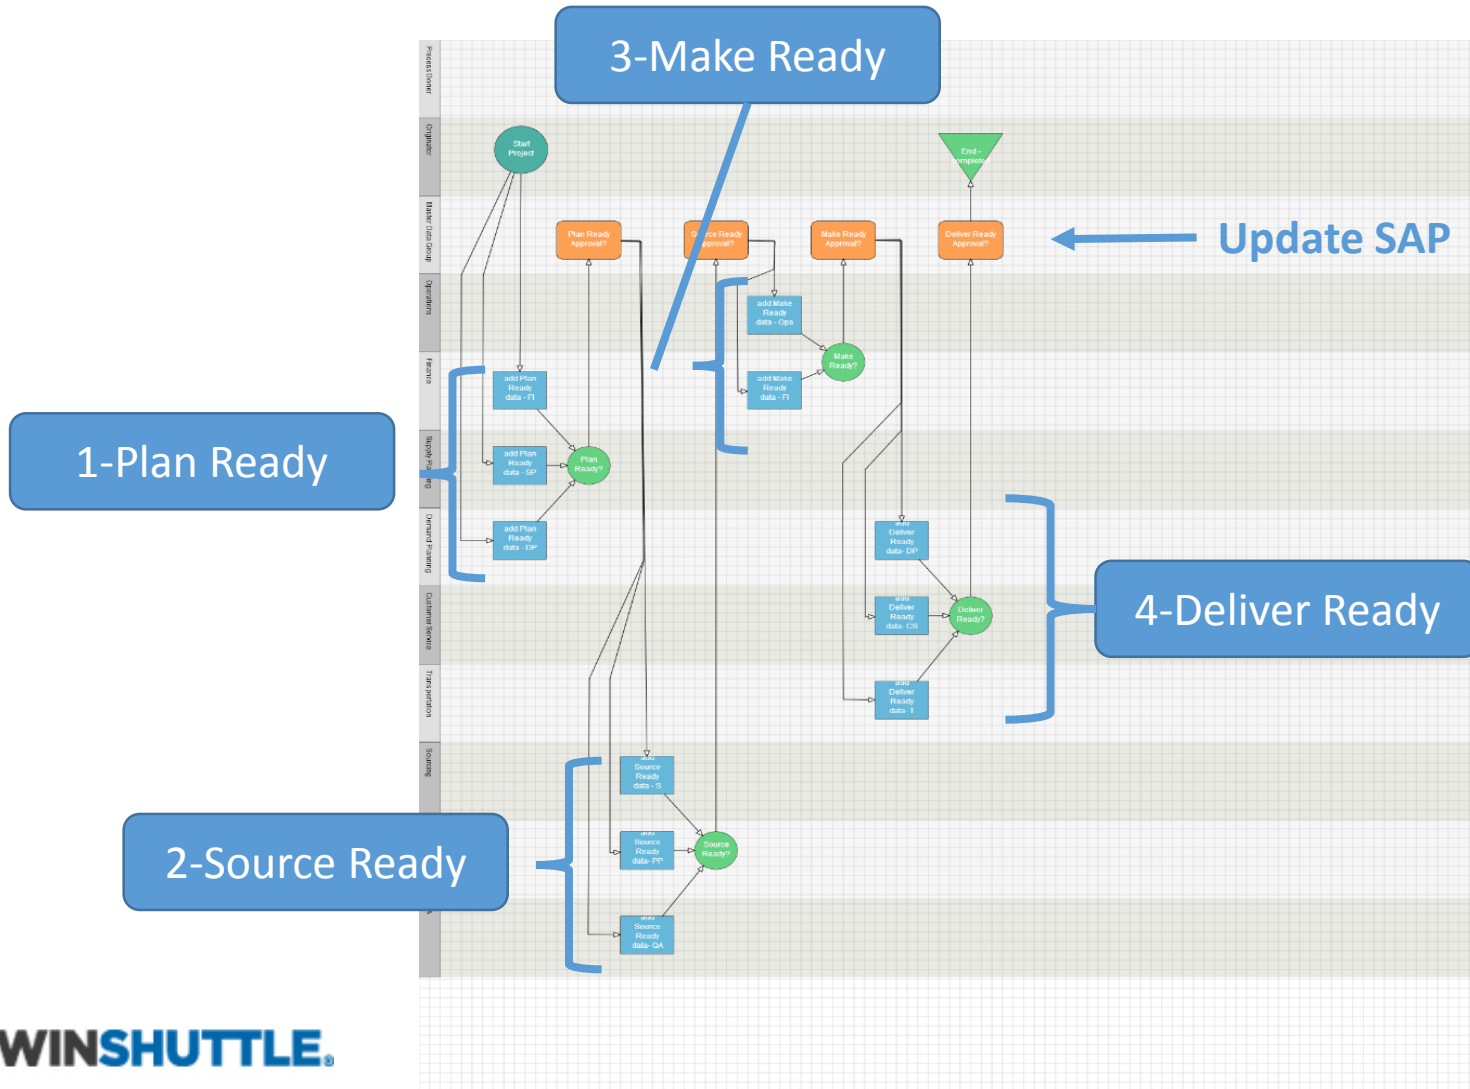

Example – Workflow Specifics

Finished Goods with Phased Material Creation

Example – Workflow Overview

Demo / Solution Overview

- Bulk Processing → Quicker to Market
 - Don't want to route a separate form for every material
 - Further automation from a single form
- FORM Based Solution!
 - Control over user experience and capability
 - True form functionality for multiple records
 - Excel is only a vehicle to get data into or out of the FORM
- Smart Table – Available today!
 - 11.0.1 – excel functionality, pagination and filtering
 - 11.0.2 – validation of table rules
 - 11.0.3 – search and sort and performance improvements
- No Java Script
- 1-2 weeks of dev time

Benefits of Smart Table

- Upload/download to Excel
- Pagination → performance
- Concurrent editing – Unique fields
- Table rules
- Validations of Business rules
- Performance → Repeating web service (updates to SAP)
- Sort and Search capabilities

Other options → Integrated Workflow (Excel with Workflow – v11.1)
