Winshuttle for 8 years
SAP SD, CRM & Security

What the experts say

Too Slow and Sloppy

What the market says

“54% of requests to IT go unanswered and this doesn’t count when business stops asking”

“We will no longer support on premise SharePoint”

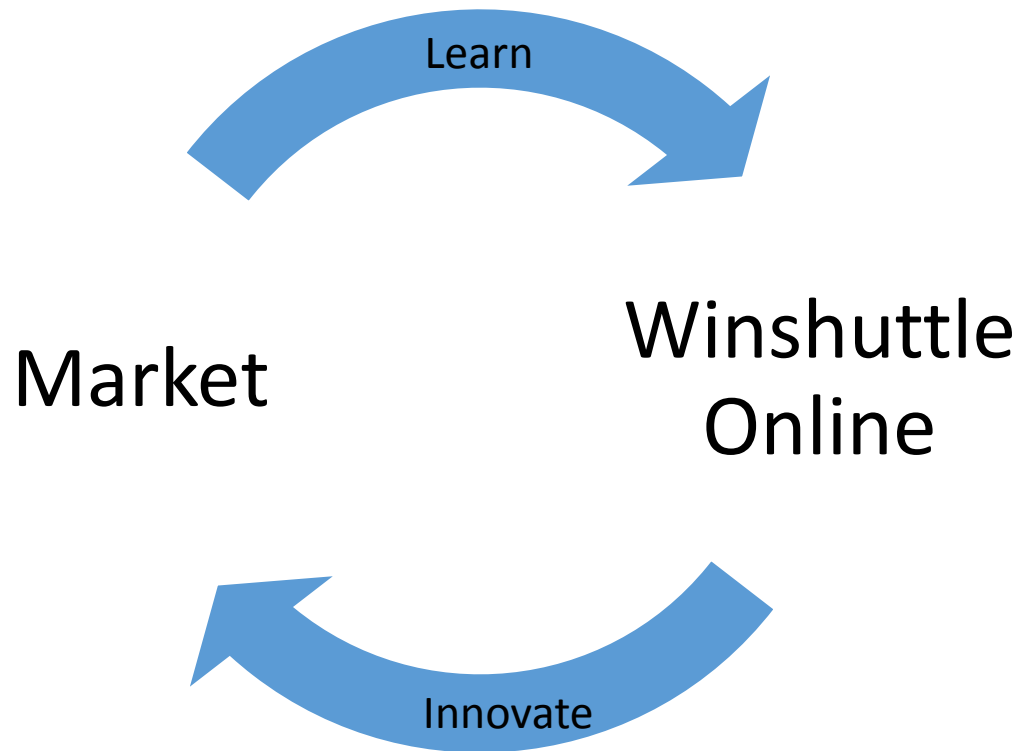

“80% of budget spent keeping lights on”

“My IT department is often too _____

- a) Difficult to deal with
- b) Expensive
- c) Slow
- d) All of the above”

Increase speed for competitive advantage

Will Winshuttle Online be available as a single tenant or multitenant environment?

- Single tenant environment in the initial release
- Multi-tenant to follow

Do I still have to install Studio on my desktop?

- Yes, Studio still needs to be installed on a local machine

Do we need to have Office 365 accounts to use Winshuttle Online?

- Yes, you have to have an office 365 account (S1 Plan)
- You can either use an existing account or we can provision accounts for those who do not have one already

How will it be licensed and what will it cost?

- Subscription based licenses
- Pricing is still in the works with special consideration for Early Adopters

When will Winshuttle Online be Available?

- Winshuttle Online Governance is available in Beta today
- Winshuttle Online Enterprise is projected for Q4 2016

Who should I go to with questions?

- Marc.Rouhana@Winshuttle.com
